Come and have a good holiday with us!

**Be assured that for your health protection, we are strengthening the disinfection of the common areas.**

Dear customers,

Our priority is to guaranteeing you a high level of sanitary requirements. Therefore, for your health security, we have engaged a cleaning company, which will ensure the cleaning and the disinfection of the bar, the swimming pool changing rooms as well as the sanitary facilities. The disinfection will be made several times a day.

The cleaning company follows the Hospital Hygiene Practices Guide. The Know-how of the Net Plus Company is subject to ISO 9001, which is a certification for the hospital sector.

The products used by the company are disinfectants, fungicides, bactericides and virucides. The EN14 476, A1 and A2 virucides are active on the coronavirus.

**We look forward to seeing you very soon at the Letty.**

**Karine & Marc Le Guyader**
